

Book Report: Two Commentary Sets

***The Evangelical Exegetical Commentary***

I've recently used this in studying 1 Samuel. The commentary is divided into the following sections for each pericope:

1. Original Text
2. Textual Notes
3. Translation
4. Commentary
5. Exegetical Note
6. Selected Bibliography

I found it quite helpful

***The Lexham Research Commentaries***

Perhaps what I appreciate most about this set is that it gives you a brief synopsis of what other commentators say about the text. It is divided into the following sections for each pericope:

1. Overview
2. Structure
3. Place within the Book
4. Place within the Canon
5. Issues at a Glance
6. Application Overview
